

## **SESAME's second short term Lab/Field Training**

The second part of SESAME's short term Lab/Field Training scheme will take place during the months of August-September 2008.

The list of successful applications for SESAME's training scheme can be downloaded on the SESAME website.

- The call is open for scientists, technicians and PhD students within the SESAME partner Institutions.
- Scope of training: Field training during SESAME's August-September 2008 cruises and lab training for analysis of collected data during SESAME cruises
- The duration of lab training should not exceed 8 days (1 full week). For the field training, it will be determined according to the planned cruises.
- The grant covers travel expenses, accommodation and per diem in case of lab training and travel expenses and a lump sum in the case of field training.
