CALL FOR APPLICATIONS 2010/2011

The PhD Programme in Science and Management of Climate Change was established in 2007, through an agreement between the Università Foscari in Venice (Unive) and the Euro-Mediterranean Centre for Climate Change (CMCC), a consortium comprising several Italian public and private Research institutions.

Objectives of the PhD

Unive and CMCC joined their efforts to launch a joint PhD Programme in order to provide the job market with experts with a broad, in-depth, scientific and socio-economic background, as well as with a sound and innovative research experience focusing on the dynamics of climate change and the methodologies and techniques for evaluation and management, in terms of mitigation and adaptation measures and policies.

Organisation of the PhD Programme

The Programme is organised in two Streams:

- *Dynamic Climatology*, at CMCC in Bologna
- *Climate change impact and management*, at the Department of Economics of the University Ca' Foscari in Venice

Twelve 5-credit courses are planned for the first academic year, in order to provide students with the state of the art of the scientific findings related to the two disciplinary streams. These also foresee common activities with the objective of offering tools to build a sound scientific, managerial and economic base for the general comprehension of the broader theme of climate change, with the opportunity for in depth studies of specific issues and for experiencing a multidisciplinary approach. The second year is aimed at providing the PhD candidates with an experience of research in a foreign institution, while the third year is mainly devoted to the preparation of the thesis. There are 8 places in total with 3 scholarships – funded by CMCC and CPI (Climate Policy Initiative)

Application information and forms

The application deadline is 27th April 2010 (12.30 Rome time: GMT+1)

The announcement and forms for the PhD Programme on SMCC application can be downloaded at: http://www.unive.it/nqcontent.cfm?a_id=67003
