

Southern European Seas: Assessing and Modelling Ecosystem changes

Latest News

- Approaching deadline for IMBER IMBIZO II: Integrating biogeochemistry and ecosystems in a changing ocean: Regional comparisons, 10-14 October 2010, Crete, Greece

IMBER is an IGBP-SCOR project focusing on ocean biogeochemical cycles and ecosystems research. The goal of IMBER is to investigate the sensitivity of marine biogeochemical cycles and ecosystems to global change, on time scales ranging from years to decades. IMBER IMBIZO II will be held on 10-14 October 2010, in Crete, Greece. The deadline for abstract submission is **15 April**. For more information, please visit <http://www.imber.info/IMBIZO.html>

- Advanced School on Data Assimilation, 7-11 June 2010, Bologna, Italy

An Advanced School on Data Assimilation is organised from 7-11 June 2010, in Bologna, Italy, by the CMCC in Bologna and the NOAA, USA. The School is sponsored by the Centro Euro Mediterraneo per i Cambiamenti Climatici (CMCC) and Gruppo Nazionale di Oceanografia Operativa (GNOO). The School will describe the fundamental methods and techniques used in Data Assimilation and state of the art applications. Theoretical lectures will be followed by practical exercises, while Bayesian, variational and ensemble methods will be covered. The deadline for applications is 16 April 2010. - 1st International Conference on Marine and Maritime Affairs (ICMMA), 15-16 September 2010, University of Plymouth, UK

The University of Plymouth is establishing a biennial international conference on Marine and Maritime Affairs, and this inaugural event will be held in Plymouth on the 15 and 16 September 2010. The theme of this year's Conference is 'Sustainability in the Marine and Maritime Industries'. The conference is directed at stimulating dialogue between academics, policy-makers and professionals within and between the marine and maritime fields. If you are interested in presenting a paper at the conference by submitting an extended abstract, or interested in presenting a poster at the accompanying exhibition, please visit <http://www.icmma.info>

- New abstract on the evolution of a buoyant outflow in the presence of complex topography

A new abstract has been uploaded in the 'Partners Only' area of the website. All members of the Consortium are encouraged to approve the abstracts according to SESAME's Publication Strategy. To view the document, please visit the 'Publications' section of the 'Partners Only' area or use the link <http://www.sesame-ip.eu/scientist/partnersonly>

- SESAME's 3rd Newsletter – Input needed!

Everyone's contributions are necessary in order to produce an issue of the 3rd Newsletter that covers the achievements of the project's third year. Please do send material that you think highlights your work, either to Dr. Kaberi (ek@ath.hcmr.gr) or me (mpapath@ath.hcmr.gr) as soon as possible!

This is an e-mail circulated to the SESAME mailing list. If you wish to subscribe or unsubscribe to this mailing list please email mpapath@ath.hcmr.gr.
SESAME IP is funded by the European Commission's Sixth Framework Programme, under the priority Sustainable Development, Global Change and Ecosystems.
